

TRANSFORMATIONAL MINISTRIES

# *Foster Care Transition Mentoring*

*Foster care transition mentoring is a specially designed program that allows youth transitioning out of foster care to connect with individual mentors/mentor families. This connection keeps foster youth from doing it alone after aging out of the system. The youth and their connected mentors will work together to give the youth the highest ability to succeed in life.*

Please visit [transformtacoma.org](http://transformtacoma.org) for more information on how to apply for these services and to become a mentor/mentor family.
